[Verse 1]
```
        C                      F
Well, I hope that I don't fall in love with you
G      C              F                  G
 Cause falling in love just makes me blue
```

[Chorus]
```
          F                   C
Well, the music plays and you display your heart
G             C7
 for me to see
  F                 C              F
I had a beer and now I hear you calling out for
  G
me
      C                      F   G         C
And I hope that I don't fall in love with you
```

[Verse 2]
```
              C             F
Well, the room is crowded, people everywhere
```

```
G      C                    F                    G
 And I wonder, should I offer you a chair?

[Chorus]
          F                          C
Well, if you sit down with this old clown
     G                             C7
I'll take that frown and break it
  F                  C             F
Before the evening's gone away, I think that we
          G
can make it
      C                   F       G          C
And I hope that I don't fall in love with you

[Verse 3]
     C                           F
Well, I can see that you are lonesome just like
G
me
       C                    F                G
And it being late, you'd like some company

[Chorus]
        F                C                   G
Well, I turn around to look at you, and you look
           C7
 back at me
```

```
    F                      C                    F
The guy you're with he's up and split, the chair
                 G
 next to you is free
      C                     F       G          C
And I hope that you don't fall in love with me

[Verse 4]
      C     F          G
Lalala lala lalalalala
      C   F      G
Lalala la la lala

[Chorus]
      F       C
Lalala lala lalalala
  G       C7
Lalalalalala
  F        C
Lalalalala lalala
  F       G
Lalalalalala
      C                        F   G          C
And I hope that I don't fall in love with you

[Verse 5]
                C                    F
Well, the night does funny things inside a man
```

```
G          C                F                    G
 These old tomcat feelings you don't understand

[Chorus]
        F               C                G
Well, I turn around to look at you, you light a
         C7
cigarette
  F              C               F
I wish I had the guts to bum one, but we've
         G
never met
      C                 F       G         C
And I hope that I don't fall in love with you

[Verse 6]
         C                  F              G
Now it's closing time, the music's fading out
     C                      F            G
Last call for drinks, I'll have another stout

[Chorus]
  F              C                   G
I turn around to look at you, you're nowhere to
        C7
be found
```

```
  F                          C
I search the place for your lost face, guess
     F
I'll have another round
G      C                   F       G          C
 And I think that I just fell in love with you
```
